INSTRUCTIONS ON HOW TO ORDER CONSUMER SERVICES

- ① This order form can be used only for conversion of consumer formats. To see a list of the consumer formats, please go to the web page for the requested service.
- ② This form can be used for all types of consumer originals: video, film, audio, photos, negatives, and slides.
- ③ For each type of your consumer originals (video, audio, photo), check the box for the output format and enter the number of CDs, DVDs or BRDs you want.
- ④ The requested output format will apply to all originals of that particular type (audio, video, photo/negatives/slides). If you have multiple items of one type and want different output formats or different number of additional copies for different originals, please provide a detailed description of the required services on a separate sheet.
- ⑤ Should you choose two or more output formats in the same category, each of the originals of that category will be processed in all the formats requested. The initial fee will be for the highest priced item and the fee for the second or any subsequent format of equal or lesser value will be 50% off the listed fee.
For example, you send a VHS tape to be made into a Blu-ray disc and also a DVD. You will be charged the full conversion fee for the Blu-ray output, which is higher, plus 50% of the fee for conversion to DVD.
- ⑥ Some categories indicate a minimum length (motion film scanning) or minimum number of items (photo / negative / slides scanning). If you send less, you will be quoted for the minimum.
- ⑦ If you order anything on USB drive or hard drive, you have the option to provide your own USB or hard drive. Otherwise, we will provide one with the closest capacity that we have in stock and add the cost to your estimate. Please let us know if multiple identical drives are required.
- ⑧ The digital media must be formatted for either Windows or Apple. You must let us know which one is required.
- ⑨ Priority processing is available on some of our services at an additional cost. If this is a time-sensitive job, please check the appropriate field on the form and we will provide an estimated time and cost after we evaluate your originals.
- ⑩ Be sure to include all your contact information in the "Billing" and "Shipping" fields. We do not share that data with any third parties and we will not send you spam email. We send you our estimates and invoices via email. We will contact you by phone if we need clarification. Failure to provide the full contact information will result in delaying the project.
- ⑪ Please ship the original media in a rigid cardboard box, with at least 1/2 inch of cushion between media and the box. Make sure the media does not shift inside the box. Mark the box clearly "FRAGILE" and "MAGNETIC MEDIA". Use any traceable courier service (UPS, FedEx, DHL, USPS) with delivery confirmation. Your media (except USB drives) qualifies for Media Mail service at very low cost. Different size boxes are available for free (for priority services) at the courier's office.

IMPORTANT: Do not forget to include the order form.
